

# Along For The Ride

by David Washington

I don't know where I'm goin'.

I wish more of this path was showin'.

There's just a little more I'd like to be knowin',

I'm just along for the ride.

When I can't see around the corner

Fear overtakes my sense of wonder.

When sitting by the road won't do

And moving on is scary, I surrender.

I don't know where I'm goin'.

I wish more of this path was showin'.

There's just a little more I'd like to be knowin',

I'm just along for the ride.

This path is unique to me,

A solitary custom tailored journey.

This thing is not in my control

And changing as I let it roll.

I don't know where I'm goin'.

I wish more of this path was showin'.

There's just a little more I'd like to be knowin',

I'm just along for the ride.
