

## In The Stillness of This Moment - David Washington

In the stillness of this moment, Ahh.....

In the stillness of this moment all is well

When I feel afraid, I let love...  
Love dissolves my fear.

Sometimes I get so angry believing something's stopping me.  
But there's still a power nothing can withstand.

When I feel down and all alone  
I find that place inside.  
Slow down,

In the stillness of this moment all is well

All is well
