

## Do It Again – David Washington

Every time I try something new  
A little bit of fear comes too.  
I turn around to meet it face to face  
And put that worry back in its place.  
There's opportunity in disguise.  
I'm the one who gets to decide.  
I know success when I just hang in.  
I did it before, I can do it again.  
I know success when I just hang in  
I did it before, I can do it again.  
Did it before, I can do it again.  
Did it before, I can do it again.

Every time I try something new  
Someone offers a point of view.  
If you really want to be my friend  
Just know success for me in the end.  
See opportunity in disguise.  
I'm the one who gets to decide.  
I know success when I just hang in.  
I did it before, I can do it again.  
I know success when I just hang in  
I did it before, I can do it again.  
Did it before, I can do it again.  
Did it before, I can do it again.

## Do It Again - 2

Something wants to be created  
And it wants to come through me.  
Unique essences of Life come to birth  
And a brand new living form on earth

Every time I try something new  
A little bit of Light comes through.  
I know success when I just hang in.  
I did it before, I can do it again.  
I know success when I just hang in  
I did it before, I can do it again.

Did it before, I can do it again.

Did it before, I can do it again.

Did it before, I can do it again.

Did it before, I can do it again.

Did it before, I can do it again.

Did it before, I can do it again
