

Something Good Today - David Washington

Something good is happening today.

Something good is happening!

Today I'm open to my brand new possibility

As I declare that "Life is good", Good returns to me.

Something good is happening today.

Something good is happening!

Today I live in mindfulness and use my inner eyes

To see the Life in everything and let my spirit fly.

Something good is happening today.

Something good is happening!

Today I'll do the best I can and love that I'm unique

And see the God in everyone as I know God in me.

Something good is happening today.

Something good is happening!

Today I'm open to my brand new possibility

As I declare that "Life is good", Good returns to me.

Something good is happening today.

Something good is happening!

Something good is happening. Something good is happening.

(Good, good day) Something good is happening

(Good day) Something good is happening.

Good, good day!
